- 24/7 emergency locksmith service.

Brief Company History

Formed in 2001 to design, supply, install and maintain electronic security systems.

In 2007 commenced the process required to form an Alarm and CCTV Central Monitoring service and the upgrade of the Company's security services to Monitoring and Fast Response, plus Patrol and Static Guarding.

2009 achieved Alvara's 171-A and 171-C for Monitoring and Guarding services.

Brief Personal Background

The Founder and Director of the Company – Jack Harvey – has been in the Security Industry for over 35 years working both at Home and Abroad with some 16 years spent in Portugal.

Company Slogan

“Act – Don't React”

Unique service points:

The “**IBC GUARDIAN**”, due to be launched in the Algarve later this year is a simple to operate emergency mobile device which, on activation will immediately notify the **IBC Security Central Monitor**.

At the same time a two-way communication channel is opened to allow the user to talk directly to the **IBC Security Central Monitor Operator** for the exchange of information and also to provide reassurance during the emergency.

It features an active GPRS system which provides accurate personal location to co ordinates enabling a user to receive help from the **IBC Security Fast Response services**.

IBC Security's unique service points lay in their “**Mission Statement**” which is: “to fully utilize their wide experience and innovative approach to security and to actively promote crime prevention through the introduction of leading edge electronic and security systems”

IBC Security Limitada's objectives are to assure Residents, Owners and Visitors alike, who live, work and invest in the Algarve, that they are in a Safe and Secure environment.
