

## Restrictions

From 1st July to 30th September or outside this period, whenever the wildfire risk is “very high” or “extreme”, the following restrictions apply:

- BBQ and grills are prohibited in all rural areas except in places duly authorised for the purpose
- Smoking and all types of naked flames are prohibited in woodland and forests
- Balloons with a lit fuse and rockets are prohibited
- Fireworks are only permitted subject to authorisation from the Municipal Council
- Accessing, circulating or staying by people and vehicles, shall be subject to conditions, in the following areas:
  - Areas classified as “critical zones”
  - Areas subject to forest control and under State Management
  - Areas where there are corresponding signs indicating limitation of activities

**AVOID DISCARDING GLASS BOTTLES, GAS CONTAINERS AND OTHER DEBRIS, WHICH MAY START A FIRE**

## More information

Check the daily wildfire risk at [www.ipma.pt](http://www.ipma.pt) (National Meteorological Authority).

In exceptional circumstances, when the risk of wildfires is very high or extreme in some regions, a SMS is sent by the National Civil Protection to notify people located in these areas. This SMS is sent to both national and foreign registered phone users.

**TO REPORT A FIRE OR IN CASE OF EMERGENCY CALL 112 IMMEDIATELY**

## If you travel by caravan or motor home

- › Carry a first aid kit and fire extinguisher
- › Fix smoke and carbon monoxide detectors
- › Check gas pipes and seals regularly
- › Setup camp only in designated places

## If you are camping in rural areas

- › Choose only designated camp sites
- › Familiarize and follow the site regulations concerning safety measures

## If you are undertaking off-road activities

- › Check weather conditions and wildfire risk
- › Check with organizers regarding safety measures

## If you are near a wildfire

- › Immediately call 112
- › If you are not in danger and have suitable clothing try to extinguish small outbreaks with shovels, hoes or branches
- › Avoid exposure to smoke, cover your mouth and nose with a damp cloth
- › Protect the body from flames and heat with dry and long clothing
- › Do not impair the actions of firefighters, forest firefighters and other rescue forces and follow their instructions
- › Remove your vehicle from the access routes to the fire
- › Inform the authorities if you notice the presence of anyone acting suspiciously

## If you get surrounded by a fire

- › Make your way to a shelter or collective refuge. If you are not near one, look for a preferably flat area with water or little vegetation
- › Breathe close to the ground, if possible with a wet cloth, to avoid inhaling smoke
- › Cover your head and rest of your body
- › Use a damp cloth to protect your face from heat and smoke
